Marc Flaherty

My name is Marc Chapman Flaherty, I'm 19 years old and I've been working at Summerscape for several years and love it more and more as seasons pass! I'm a sophomore at Colby Sawyer College double majoring in history and political science, and plan on becoming a high school history teacher. I also take pride in being the silliest staff member at Summerscape and I don't take life too seriously.

In my spare time I love to adventure outside, whether it's hiking, biking, camping, snowboarding, wake boarding or otherwise, if it's outside chances are I love it! I also enjoy piña coolattas and getting caught in the rain, but I'm not really into yoga. I love to listen to music, and I collect vinyl records! Some of my favorite records include: Eat a Peach by the Allman brothers, American Beauty By the Grateful Dead, Barry Manilow Live, and Endless summer by The Beach Boys.

I don't quite know how to finish this biography of my self, so here it is:
The end!
