Presentation:
Dr. Ruth Potee
***What Every Parent Must
Know about Tween-Teen
Brain Development***

Thursday, May 18, 2017 at 6:30pm

North Reading Middle/High School Performing Arts Center

Dr. Potee is a nationally renowned expert in adolescent brain development and its impact on tween-teen risk taking, including alcohol and substance abuse. She blends scientific research with an understanding of the challenges of raising healthy teens. Dr. Potee is a family medicine doctor in Greenfield, Massachusetts and is affiliated with multiple hospitals including Boston Medical Center. She received her medical degree from Yale University School of Medicine and has over twenty years of experience.
