NOTES

Our Mission

The North Reading Community Impact Team (CIT) is a collaborative partnership between community resources that emphasizes the use of innovative, non-traditional methods to identify factors that have a negative impact on the quality of life for all and to implement solutions that solve the underlying problems.

This guide was produced by the Social Services Action Team.

The Social Services Action Team was created in 2012 as part of the CIT. The initial focus was to produce a Crisis and Resource Guide for the needs of North Reading residents. As an on-going task the Guide is revised periodically to ensure that the links and phone numbers are still accurate. Since that time, we have sought to address quality of life issues that affect all North Reading residents through education, awareness, and advocacy.
