It is mandatory that the Contractor be able to meet the following requirements:

- a) Have been regularly and actively engaged in the HVAC contracting business, operating under the same business name and business organization structure; and performing the type of work described section for a minimum of three (3) years, and is located within ten (10) mile radius of the Town of North Reading Town Hall.

7. Conditions of Work

Each bidder must familiarize himself fully with the conditions relating to the construction of the work and the employment of labor thereon. Failure to do so will not relieve a successful bidder of his obligation to furnish all material and labor necessary to carry out the provisions of his contract. Insofar as possible the Contractor, in carrying out his work, must employ such methods or means as will not cause any interruption of or interference with the work of any other Contractor.

The Contractor must check in and out with the Director of Public Works, or his designee, the Building Superintendent, or other authorized municipal employee for work to be performed at municipal locations to determine the exact scope of the task required and open a work order which specifies the work and labor force required. This work is of a nature to require a pipefitters or specific permit; therefore the permit number shall be included on the work order. After the work is completed, the Contractor shall list the hours worked on site, the worker's name, trade skill level (licensed journeyman or registered apprentice) and the materials used. The Director of Public Works or his designee, the Building Superintendent, must sign off on the work order before the Contractor leaves the work site. A copy of the work order must accompany the invoice submitted for payment of the work. In the event a permit is required, the work order must have the inspector's signature. The invoice must show the labor hours and costs, the Contractor cost and mark-up of all materials used, and any other miscellaneous charges.

a. Quality Of Work

All work is to be quality work and shall be performed according to the standards of the industry and according to the plans, directions and instructions as presented by the Director of Public Works, or his designee, the Building Superintendent. It is the Contractor's responsibility to ensure that all materials for the Town of North Reading shall meet the appropriate industry standards.

b. Number Of Workers

The hourly rates reflect the amount a Contractor will charge per hour only - not per hour per person. Only one tradesman shall be assigned to work on a job. Prior permission must be received before the Contractor can assign more than one worker per job, including apprentices/helpers. The Town reserves the right to question whether additional personnel are warranted on a particular job based upon each job quote/proposal and performance status. Special attention will be given to allow for assistance when needed, or an unexpected parts acquisition is needed during a job to contain costs. However, the Contractor must arrive at any routine job that he has quoted prepared with the appropriate personnel, equipment and supplies to perform the project with minor off-site time and travel.

c. Contractor's Personnel

The Contractor shall only use trained personnel who are directly employed and supervised by the Contractor unless prior approval is obtained (See Subcontracting). The Contractor and/or any HVAC professionals that perform the work (under this contract) shall hold a valid Massachusetts Boiler & Pressure Vessel License and/or a valid Massachusetts Pipefitters License when equipment identified in the specification section 00900 should require such license in compliance with Massachusetts General Law.

d. Materials Safety Data Sheets

The Contractor must supply all applicable Material Safety Data Sheet (MSDS) forms as requested by the Town. Pursuant to M.G. L. Ch. 111F, ss. 8, 9, 10. Any vendor who receives a contract resulting from this invitation agrees to submit a Material Safety Data Sheet for each toxic or hazardous substance or mixture containing such substance when deliveries are made. The vendor agrees to comply with all requirements set forth in the pertinent laws.

e. Hours Of Work

It is intended that the Contractor shall accomplish the majority of work during normal business hours and on a straight time basis. Work shall not be accomplished on an overtime basis unless prior approval has been obtained from the Director of Public Works. Standard hours of work shall be Monday-Friday 7:00 a.m. until 5:00 p.m.

f. Response Time Emergency Repairs

The Contractor shall acknowledge all service calls within one (1) hour of the call being placed. Response to calls from the Town for emergency service is required twenty-four (24) hours a day, seven days a week. Contractors must have an interactive paging or telephone answering service, or a cell phone number that is available twenty-four (24) hours a day seven (7) days a week; passive answering machines are not acceptable. Repair personnel shall arrive at the designated job site not later than two (2) hours after an authorized Town of North Reading employee has made notification that an emergency repair is required.

g. Non-Emergency Repairs

The response time for all non-emergency service calls will be within twenty-four (24) hours from the time the Contractor is notified by the Town of North Reading that service is required. Repair must start within three (3) business days of receipt of a work order initiated by the Director of Public Works, or his designee, the Building Superintendent, or another authorized/designated employee of the Town of North Reading, unless otherwise agreed to by the Town. Any non-emergency work that is performed after normal business hours will be coordinated between the Contractor and the Building Superintendent or authorized Department of Public Works personnel.

Failure to comply with the above required response times are ground for immediate termination of this contract.

h. Subcontracting

The Contractor shall not subcontract or sublet any portion of the work without the written consent of the Director of Public Works or designee (Building Superintendent).

i. Permits Licenses

The contractor is responsible for determining what, if any, permits, licenses and inspections are applicable for all work, obtaining all said applicable permits, licenses and inspections, be they Federal, State and/or Local type permits, licenses or inspections, and paying for all costs associated with said permits, licenses and inspections.

All permit costs and fees will be invoiced to the Town of North Reading upon completion of work. The Town of North Reading will pay/reimburse only the actual permit cost; no mark – up is allowed. All permits are at all times the property of the Town of North Reading. The Town reserves the right to waive permits fees issued by the Town of North Reading Building Department.

All permits must be turned over to the Town of North Reading after all work is completed before any payment will be made for work. If permits are not obtained, and associated inspections not completed & passed, payment will not be made. Permits must be obtained for work performed under this contract as required.

All work must be performed by a trained and qualified HVAC professional. Bidders must possess and submit a copy of all Massachusetts issued licenses that pertain to HVAC work with their bid (Pressure Vessels & Pipefitter). See submission form at the end of this document.

j. Inspection

The Town of North Reading reserves the right to inspect any and all work in progress or completed. Any omission or failure on the part of the Town of North Reading's representative to disapprove or reject inferior or defective work or materials shall not be construed to be an acceptance of such work or material. If any defective work or material is found during inspection, the Contractor shall remove or repair, at his/her own expense, such defective work or material rejected and shall rebuild and/or replace same without extra charge.

If the Contract Documents, the Owner's or his/her agent's instructions, or laws, ordinances or regulations of any public authority require any work to be tested or approved, Contractor shall give the Owner or his/her agent timely notice of its readiness for inspection by the proper authorities. If any such work shall be covered up without approval or consent, it must, if required by the Owner or his/her agent or other proper authorities, be uncovered for examination at Contractor's expense.

k. Travel Cost & Minimum Billable Hours

The contractor is NOT allowed to charge the Town of North Reading for any travel, fuel, surcharges, mobilization costs, or any expenses or fees of any kind related to travel to and from the Town of North Reading facility locations to perform work under this contract. All such cost must be included in hourly billable rates in the bid. **Computation of the number of hours worked shall include only those hours spent at the job site excluding meal times.**

l. Invoice/Payment

The Contractor will be paid per approved invoice (on a monthly basis). An invoice will be presented for the services performed. This invoice shall, as a minimum, identify the work that was done, where it was done, when it was done, who authorized it and the applicable work order. Additionally, it will detail the unit cost and extended cost for each wage/labor category, Contractor cost and applicable markup for parts and/or materials and costs for equipment rental.

The Contractor shall maintain and keep current a summary report that will reflect cumulative dollar figures for items invoiced. This report shall be provided to the Town of North Reading annually or upon request, and shall reflect cumulative dollar figures for each wage/labor category, Contractor cost and applicable markup for parts and/or materials and costs for equipment rental.

The contractor is responsible for the supply of all materials, supplies and parts needed to properly complete any and all work performed under this contract. The contractor is allowed a ten percent (10%) mark-up over the contractors cost for all such materials and parts. The contractor must break out/itemize the cost and the additional 10% mark-up for all materials and parts on all invoices submitted to the Town of North Reading. The contractors own purchase invoices for materials supplies and parts used for any work must be made available to the Town upon request for audit purposes. The Town reserves the right to audit the

contractor's books/records at any time to verify all materials and parts original costs. Failure to cooperate with this request at any time will result in an immediate termination of the contract, and non-payment for any materials for which the contractors original purchase invoice is not made available for audit.

The Town of North Reading reserves the right to purchase and supply materials, supplies and parts needed for repair and installation. The contractor will still perform the HVAC service requested at the hourly rates contained in this bid/contract; and no charge or markup for any said parts supplied by the Town of North Reading will be allowed.

Information about Prevailing Wage Schedules for Awarding Authorities and Contractors

- This wage schedule applies only to the specific project referenced at the top of this page and uniquely identified by the "Wage Request Number" on all pages of this schedule.
 - An Awarding Authority must request an updated wage schedule from the Department of Labor Standards ("DLS") if it has not opened bids or selected a contractor within 90 days of the date of issuance of the wage schedule. For CM AT RISK projects (bid pursuant to G.L. c.149A), the earlier of: (a) the execution date of the GMP Amendment, or (b) the bid for the first construction scope of work must be within 90-days of the wage schedule issuance date.
 - The wage schedule shall be incorporated in any advertisement or call for bids for the project as required by M.G.L. c. 149, § 27. The wage schedule shall be made a part of the contract awarded for the project. The wage schedule must be posted in a conspicuous place at the work site for the life of the project in accordance with M.G.L. c. 149 § 27. The wages listed on the wage schedule must be paid to employees performing construction work on the project whether they are employed by the prime contractor, a filed sub-bidder, or any sub-contractor.
 - All apprentices working on the project are required to be registered with the Massachusetts Department of Labor Standards, Division of Apprentice Standards (DLS/DAS). Apprentice must keep his/her apprentice identification card on his/her person during all work hours on the project. An apprentice registered with DAS may be paid the lower apprentice wage rate at the applicable step as provided on the prevailing wage schedule. **Any apprentice not registered with DLS/DAS regardless of whether or not they are registered with any other federal, state, local, or private agency must be paid the journeyworker's rate for the trade.**
 - The wage rates will remain in effect for the duration of the project, except in the case of multi-year public construction projects. For construction projects lasting longer than one year, awarding authorities must request an updated wage schedule. Awarding authorities are required to request these updates no later than two weeks before the anniversary of the date the contract was executed by the awarding authority and the general contractor. For multi-year CM AT RISK projects, awarding authority must request an annual update no later than two weeks before the anniversary date, determined as the earlier of: (a) the execution date of the GMP Amendment, or (b) the execution date of the first amendment to permit procurement of construction services. Contractors are required to obtain the wage schedules from awarding authorities, and to pay no less than these rates to covered workers. The annual update requirement is not applicable to 27F "rental of equipment" contracts.
 - Every contractor or subcontractor which performs construction work on the project is required to submit weekly payroll reports and a Statement of Compliance directly to the awarding authority by mail or email and keep them on file for three years. Each weekly payroll report must contain: the employee's name, address, occupational classification, hours worked, and wages paid. Do not submit weekly payroll reports to DLS. A sample of a payroll reporting form may be obtained at <http://www.mass.gov/dols/pw>.
 - Contractors with questions about the wage rates or classifications included on the wage schedule have an affirmative obligation to inquire with DLS at (617) 626-6953.
 - Employees not receiving the prevailing wage rate set forth on the wage schedule may report the violation to the Fair Labor Division of the office of the Attorney General at (617) 727-3465.
 - Failure of a contractor or subcontractor to pay the prevailing wage rates listed on the wage schedule to all employees who perform construction work on the project is a violation of the law and subjects the contractor or subcontractor to civil and criminal penalties.
