**TOWN OF NORTH READING FOREST COMMITTEE TO HOST PUBLIC  
MEETING ABOUT SWAN POND FOREST TRAIL AREA IMPROVEMENTS**

NORTH READING, MA – The Town of North Reading Forest Committee will be holding a public meeting on Wednesday, April 24 at 6:30 p.m. to showcase a proposal for the Swan Pond trail access improvement plan.

The Swan Pond forest area is a beautiful natural area nestled in the heart of North Reading, which is under the care and responsibility of the Forest Committee. The Forest Committee has been working with the consultant group Horsley Witten to develop a proposal for improvements to the area that will enhance the ability for passive recreation and improve accessibility, without detracting from the natural wildness of the forest. The Forest Committee is coordinating their efforts with the Conservation Commission, School Department, and the Town Government who are all stakeholders. All members of the public are welcome and encouraged to attend.
