

TOWN OF NORTH READING WASTEWATER PROJECT UPDATE

Select Board Meeting
Monday, October 16, 2023
North Reading Town Hall
Room 14

General Update

- Terms of federal money required a procurement process for final design work. Proposals were due today, three were received and are under review, and a contract will be awarded later this week and signed by the end of the month.
- North Andover and Andover have both been provided our engineers' analysis of routes through those communities. Follow-up meetings will be scheduled in the coming weeks.
- The Town was informed last week that it did not receive a MassWorks grant award for the current grant round. This was the anticipated outcome based on not having a private development partner identified. We will continue to pursue available state and federal grant funds.
- Wastewater Project Committee meets Wednesday at 7:00 PM

Information to be Gathered

- To the extent possible, estimated impact of development on Town services.
- To the extent possible, estimated cost for operating a municipal wastewater system.
- Further analysis of bonding capacity.
