

## Application for Financial Assistance

North Reading Youth Services would like to offer as many trips, programs and events to the youth of the community as possible. We understand that the cost to families may be expensive, especially if your child would like to participate in multiple trips per year. It is our hope that financial costs to our events will never be a barrier to student involvement. For this reason, we will attempt to secure funds for a scholarship program. The Youth Services Committee will decide how much and to whom the monies are awarded. We ask that you contribute as much as you can to the total cost of the trip and we will do our best to disperse available funds to help cover the difference in what you can pay and the actual cost.
